Docket you wish to comment on: W-02467A-09-0333 et al./ Rate Increase Portion of Filing.

Docket number: W-02467A-09-0333

Case or Utility Name: Granite Mountain Water Company

Position on Docket: Con

We feel that the proposed rate increase is excessive. In performing an analysis based upon our actual water usage over the past 12 months, the proposed increase would be greatly in excess of the 20% submitted in the summary from GMWC.

We have no water rights on our land and must purchase our water from the GMWC. For about half of the year, our projected increase would be 20%. While our water utility bill is by far our highest, we would be willing to accept an across the board 20% increase at the highest. The addition of the new third tier for monthly usage over 20000 gallons would greatly affect those of us with landscaping that requires water and that was installed under the previous two tier rate structure.
